WORK EXPERIENCE

- | | |
|-----------------------------|--|
| <i>Current</i>
SEPT 2015 | Research Support at Universitat Pompeu Fabra, Spain
I am working at the department GTI (Interactive Group Technologies). My main task is to collaborate in projects related to Advanced 3D Graphics in the web. |
| SEPT-DEC 2016 | Assistant Teacher at Universitat Pompeu Fabra, Spain
I assisted and made the material for the labs of the subject Advanced Visualisation and I helped at the seminars of the subject Visual Graphics. |
| APRIL 2013 - SEPT 2015 | Internship at Universitat Pompeu Fabra, Spain
I collaborated at GTI and PhySense making and innovative project that could use each department's strengths. For one part the use of the graphics on the web and for the other the needs at the healthcare sector that could be useful. This was my work on my Bachelors Final Project. |
| JULY 2013 - SEPT 2013 | System Support at LocTeam, Spain
My main responsibilities and tasks on this job were: management of the servers in the enterprise environment, support for internal and remote users via remote management tools, implementation of new servers, making the necessary arrangements for the purchase and control of the material necessary for the implementation of the various projects and troubleshooting and commissioning of the various enterprise services. |
